

Do Not Sell or Share My Personal Information

Last Revised: July 31, 2023

Depending on what state you live in, you may have the right to opt out of "sales" of your personal information, sharing of personal information for cross-contextual behavioral advertising ("sharing"), or "processing of personal data for targeted advertising" as defined in applicable privacy law. Please read below for more information about these activities and how to opt out. We do not sell personal information for monetary consideration, but we may disclose your information to third-party partners (including through the use of tracking technologies such as cookies and pixels) for the purpose of tailoring and displaying relevant advertisements to you on our site and on other platforms, as well as analyzing our advertising efforts. This data we may disclose does not identify you by name or other directly identifiable means. Rather, it is about the basic information related to your browser, device identifiers, your general location, and the content and advertising you view on our site and mobile application. However, as further described in our Privacy Policy, these types of disclosures may constitute "sales," "sharing," or "processing of personal data for targeted advertising" under certain US state privacy laws.

If your state provides you with the right to opt out of "selling," "sharing," or "processing of personal data for targeted advertising" and you would like to exercise these rights, please contact us at hi@aigeon.ai. Please note that opting out does not mean that you will stop seeing all ads.
